## Frequently Asked Questions:

**Is there a pharmacy on campus?**

No. There are limited medications (mostly antibiotics) kept on hand that can be prescribed to a patient from our office, but we do not have an on-site pharmacy.

**Can medication be shipped from a mail-order pharmacy or guardian/parent directly to a student?**

Yes. The on-campus mailing services can coordinate these packages with the students. To ensure the best possible outcomes, please ensure that the student's name is on the package and, if at all possible, please have it delivered Monday-Thursday, especially if the medication is refrigerated.

**Can medication be kept on campus in the dorms?**

Yes. There is no requirement that medications be locked up either. However, there are lockable pill bottles available at the Student Health Center at no charge (while supplies last).
